

Alimemazine-d₆

Cat. No.:	HY-12752S
CAS No.:	1346603-88-0
Molecular Formula:	C ₁₈ H ₁₆ D ₆ N ₂ S
Molecular Weight:	304.48
Target:	Histamine Receptor; Isotope-Labeled Compounds
Pathway:	GPCR/G Protein; Immunology/Inflammation; Neuronal Signaling; Others
Storage:	4°C, protect from light * In solvent : -80°C, 6 months; -20°C, 1 month (protect from light)

BIOLOGICAL ACTIVITY

Description

Alimemazine-d₆ is deuterium labeled Alimemazine, which is an antihistamine.

Caution: Product has not been fully validated for medical applications. For research use only.
