

Product Data Sheet

Propanol-PEG6-CH2OH

Cat. No.: HY-134691 Molecular Formula: $C_{16}H_{34}O_{8}$ Molecular Weight: 354.44

Target: **PROTAC Linkers**

Pathway: **PROTAC**

Storage: Please store the product under the recommended conditions in the Certificate of

Analysis.

BIOLOGICAL ACTIVITY

Description	Propanol-PEG6-CH2OH is a PEG-based PROTAC linker that can be used in the synthesis of PROTACs ^[1] .
IC ₅₀ & Target	PEGs
In Vitro	PROTACs contain two different ligands connected by a linker; one is a ligand for an E3 ubiquitin ligase and the other is for the target protein. PROTACs exploit the intracellular ubiquitin-proteasome system to selectively degrade target proteins ^[1] . MCE has not independently confirmed the accuracy of these methods. They are for reference only.
