

Sodium caseinates

Cat. No.:	HY-139410
CAS No.:	9005-46-3
Target:	Biochemical Assay Reagents
Pathway:	Others
Storage:	Please store the product under the recommended conditions in the Certificate of Analysis.

Sodium caseinates

BIOLOGICAL ACTIVITY

Description

Sodium caseinates, the salt of casein, are the main milk protein. Sodium caseinate are able to induce proliferation and activation of granulocytes as well as increase the serum concentration of two key cytokines, GM-CSF and G-CSF. Sodium caseinate induces mouse granulopoiesis^[1].
