

## Terizidone

Cat. No.:	HY-112324
CAS No.:	25683-71-0
Molecular Formula:	C <sub>14</sub> H <sub>14</sub> N <sub>4</sub> O <sub>4</sub>
Molecular Weight:	302.29
Target:	Bacterial
Pathway:	Anti-infection
Storage:	4°C, stored under nitrogen * In solvent : -80°C, 6 months; -20°C, 1 month (stored under nitrogen)

### BIOLOGICAL ACTIVITY

<b>Description</b>	Terizidone is an antibacterial agent, and shows bacteriostatic activity. Terizidone can be used in tuberculosis (TB) research [1].
