

Truncated ADR58 sodium

Cat. No.: HY-148695C
Target: Interleukin Related
Pathway: Immunology/Inflammation
Storage: Please store the product under the recommended conditions in the Certificate of Analysis.

Truncated ADR58 (sodium)

BIOLOGICAL ACTIVITY

Description

ADR58 sodium is a highly potent and selective human oncostatin M (OSM) antagonist, which can prevent the binding of OSM to the gp130 receptor and specifically antagonize OSM-mediated signaling. ADR58 sodium can be used in the research of rheumatoid arthritis related diseases^[1].

Caution: Product has not been fully validated for medical applications. For research use only.
