

## 5'-DMTr-dA(Bz)-Methyl phosphonamidite

|                    |                                                                                           |
|--------------------|-------------------------------------------------------------------------------------------|
| Cat. No.:          | HY-154062                                                                                 |
| CAS No.:           | 114079-05-9                                                                               |
| Molecular Formula: | C <sub>45</sub> H <sub>51</sub> N <sub>6</sub> O <sub>6</sub> P                           |
| Molecular Weight:  | 802.9                                                                                     |
| Target:            | DNA/RNA Synthesis                                                                         |
| Pathway:           | Cell Cycle/DNA Damage                                                                     |
| Storage:           | Please store the product under the recommended conditions in the Certificate of Analysis. |

### BIOLOGICAL ACTIVITY

#### Description

5'-DMTr-dA(Bz)-Methyl phosphonamidite is a phosphorite monomer that can be used in the synthesis of oligonucleotides.

**Caution: Product has not been fully validated for medical applications. For research use only.**
