

mPEG-CHO (MW 2000)

Cat. No.:	HY-155919
CAS No.:	70086-22-9
Molecular Formula:	$(C_2H_4O)_n C_3H_6O_2$
Target:	Biochemical Assay Reagents
Pathway:	Others
Storage:	Please store the product under the recommended conditions in the Certificate of Analysis.

BIOLOGICAL ACTIVITY

Description

mPEG-CHO (MW 2000) participates in the formation of a three-dimensional porous scaffold which carries active substances to form a delivery vehicle. The -CHO functional group interacts with the -NH₂ functional group of the chitosan chain to form a glutaraldehyde-type adduct to functionalize mPEG. This functionalization and cross-linking can affect the rigidity of the delivery system, allowing slow release of the cross-linked conjugate system.
