

Biotin-11-dUTP trisodium

Cat. No.: HY-D1029A
Molecular Formula: C₂₈H₄₂N₆Na₃O₁₇P₃S
Molecular Weight: 928.62
Target: Fluorescent Dye
Pathway: Others
Storage: Solution, -20°C, 2 years

BIOLOGICAL ACTIVITY

Description

Biotin-11-dUTP trisodium is a fluorescent substitute for dTTP.

Caution: Product has not been fully validated for medical applications. For research use only.
