

Chondroitin sulfate (from shark cartilage)

Cat. No.:	HY-B2162E
CAS No.:	9007-28-7
Molecular Formula:	(C ₁₄ H ₂₁ NO ₁₄ S) _n
Target:	Biochemical Assay Reagents
Pathway:	Others
Storage:	Please store the product under the recommended conditions in the Certificate of Analysis.

BIOLOGICAL ACTIVITY

Description	Chondroitin sulfate (from shark cartilage) is a biochemical reagent that can be used as a biological material or organic compound for life science related research.
In Vivo	Chondroitin sulfate sodium from shark cartilage is a biochemical reagent that can be used as a biological material or organic compound for life science related research. MCE has not independently confirmed the accuracy of these methods. They are for reference only.

Caution: Product has not been fully validated for medical applications. For research use only.
