(R,R)-Glycopyrrolate

Cat. No.:	HY-B0761	
CAS No.:	475468-09-8	
Molecular Formula:	C ₁₉ H ₂₈ BrNO ₃	
Molecular Weight:	398.33	
Target:	mAChR	$\langle \downarrow \downarrow$
Pathway:	GPCR/G Protein; Neuronal Signaling	\smile 0 \bigcirc \checkmark
Storage:	Please store the product under the recommended conditions in the Certificate of	Br⁻
	Analysis.	

Product Data Sheet

BIOLOGICAL ACTIVITY Description (R,R)-Glycopyrrolate ((R,R)-Glycopyrronium (bromide); (R,R)-Glycopyrrolate (bromide)) is an anticholinergic agent. (R,R)-Glycopyrrolate ((R,R)-Glycopyrronium (bromide); (R,R)-Glycopyrrolate (bromide)) has the ability to reduce the frequency of

drooling in vivo with developmental disabilities^[1].
