

## (R,R)-Palonosetron Hydrochloride

Cat. No.:	HY-A0021C
CAS No.:	135729-75-8
Molecular Formula:	C <sub>19</sub> H <sub>25</sub> ClN <sub>2</sub> O
Molecular Weight:	332.87
Target:	5-HT Receptor
Pathway:	GPCR/G Protein; Neuronal Signaling
Storage:	4°C, sealed storage, away from moisture and light * In solvent : -80°C, 6 months; -20°C, 1 month (sealed storage, away from moisture and light)

### BIOLOGICAL ACTIVITY

#### Description

(R,R)-Palonosetron Hydrochloride is the active enantiomer of Palonosetron.
