

## (S)-2-Aminopropanamide hydrochloride

|                    |  |       |          |
|--------------------|--|-------|----------|
| Cat. No.:          | HY-75326   |       |          |
| CAS No.:           | 33208-99-0                                       |       |          |
| Molecular Formula: | C <sub>3</sub> H <sub>9</sub> ClN <sub>2</sub> O |       |          |
| Molecular Weight:  | 124.57   |       |          |
| Target:            | Biochemical Assay Reagents                       |       |          |
| Pathway:           | Others   |       |          |
| Storage:           | Powder   | -20°C | 3 years  |
|                    |  | 4°C   | 2 years  |
|                    | In solvent                                       | -80°C | 6 months |
|                    |  | -20°C | 1 month  |

### BIOLOGICAL ACTIVITY

|             |  |
|-------------|--|
| Description | (S)-2-Aminopropanamide hydrochloride is a biochemical reagent that can be used as a biological material or organic compound for life science related research. |
| In Vitro    | H-Ala-NH <sub>2</sub> ·HCl<br>MCE has not independently confirmed the accuracy of these methods. They are for reference only.                                  |

**Caution: Product has not been fully validated for medical applications. For research use only.**
