

Sofosbuvir impurity E

Cat. No.:	HY-I0727		
Molecular Formula:	C ₂₂ H ₂₉ FN ₃ O ₉ P		
Molecular Weight:	529.45		
Target:	Drug Metabolite		
Pathway:	Metabolic Enzyme/Protease		
Storage:	Powder	-20°C	3 years
		4°C	2 years
	In solvent	-80°C	6 months
		-20°C	1 month

BIOLOGICAL ACTIVITY

Description

Sofosbuvir impurity E is an impurity of Sofosbuvir, Sofosbuvir is an active inhibitor of HCV RNA replication in the HCV replicon assay, demonstrates potent anti-hepatitis C virus (HCV) activity.

Caution: Product has not been fully validated for medical applications. For research use only.
